In 2023, Southwest Solutions and Development Centers, two Detroit nonprofits committed to improving the lives of individuals and families, merged to form MiSide. MiSide serves nearly 25,000 clients across Detroit and Wayne County, ensuring that children, individuals, families, and communities have access to great healthcare, quality education, a comfortable home and the money they need to build a life they desire.

MiSide intends to address this trend by providing a more personal level of care that helps with every side of life and is unique to the needs of each community it serves through its four pillars of service:

MiSide Early Years

Early childhood education and family services

MiSide Health

Integrated behavioral and physical health services for children and adults

MiSide Housing

Affordable housing for families and individuals

MiSide Wealth

Employment and education services for adults and youth

The services offered by MiSide are the same as previously provided by Southwest Solutions and Development Centers. Both SWS and DCI have

received highest level of accreditation through CARF and will be reaccredited together in 2026.

MiSide has expanded access to programs like its Certified Community Behavioral Health Clinic (CCBHC), which provides treatment to clients experiencing mild to moderate symptoms and the Head Start and Early Childhood programs.

MiSide Community Impact Network (MiSide) is a private, non-profit corporation that provides four pillars of service (early years, health, housing, and wealth) to residents of Detroit and Western Wayne County. MiSide is a newly formed organization as of October 1, 2023. MiSide was formed through the combination of Development Centers and Southwest Solutions. MiSide's mission is to ensure that children, individuals, families, and communities have access to great healthcare, quality education, a comfortable home, and the money they need to build a life they desire.

MEDICATION

Medications may be prescribed for you by one of our Psychiatrists or Nurse Practitioners. The prescriber will discuss the medication(s) with you and provide education regarding proper usage. You are expected to take the medication as prescribed. Please discuss all concerns and side effects with your prescriber.

Our staff will work with you to obtain all the medications prescribed to you by MiSide. This is made possible by utilizing samples and applications for indigent drug programs from pharmaceutical companies. Please speak with your assigned clinician, prescriber, or a supervisor regarding medication assistance.

COORDINATION WITH MEDICAL DOCTORS

To ensure you receive the best care possible, it is essential that all the doctors you see communicate with one another. That is the reason why we ask you at your initial intake appointment and at various points throughout your services to inform us about the doctors you see and any new medical conditions you have. We also need to know about any changes in medications that your other doctors prescribe for you to better coordinate all medications you may be prescribed.

To help us with the communication process, we ask that you inform your assigned clinician and psychiatrist of all of your current doctors' names and addresses and sign consent forms for us to receive necessary medical records. MiSide in turn will send relevant medication information, such as medication

dosages and lab reports to your doctors so that they will be aware of any possible drug interactions and avoid ordering duplicate medical tests.

GUARDIANSHIP ISSUES

For adults with court appointed guardians, the guardian is responsible for making treatment decisions on behalf of the client. For children (under the age of 18), the parent is considered the guardian, unless guardianship has been granted to someone else by the probate court.

The court appointed guardian must provide MiSide with a copy of the current Letter of Authority issued by the probate court. The guardian must also sign all the necessary consents for treatment and forms authorizing release of information to and from other organizations. We welcome and expect full participation of court appointed guardians in the Person-Centered Planning process.

CLIENT SATISFACTION

What are Client Satisfaction Surveys?

At some point in time, most people have completed a "Satisfaction Survey" telling an organization how well it did its job. Here at MiSide, we ask questions to determine how satisfied our clients are with the services and supports we provide.

So, what does this mean to you?

Our clients are our highest priority. The answer you give when responding to our survey will affect the decisions we make regarding how and when to make changes to our delivery of services. All feedback provided is confidential and anonymous.

How do you participate?

Participation is voluntary. You may be a part of a sample that will tell us what our clients as a whole think of their treatment. QR codes for surveys are present in all MiSide lobbies. You may get an email or text, or you may get a letter. In any case, please take a moment to complete the survey. Your opinion matters!

What does MiSide do with the results?

Once we get our "report card" results, our Quality Assurance team identifies areas for improvement and develops an action plan to make the improvement happen.

MISIDE EMPLOYEE CODE OF ETHICS

The staff at MiSide are committed to providing high quality services to clients (and their families/guardians) and following a strict Employee Code of Ethics. Does MiSide pay for my medication?

No; however, our staff will work with you to obtain all the medication that the psychiatrist prescribes for you.

Do I need to see the psychiatrist for my medication to be refilled?

Yes; medication safety and compliance is an important part of your treatment. Your psychiatrist will not necessarily call a refill in to a pharmacy or write a prescription for you without meeting with you first.
