

**SLIDING FEE SCALE 2026**

Sliding Fee Scale daily amounts are based on your ability to pay, as established by the chart below. Annual income limits in the charts are based on the **2026 Federal Poverty Level (FPL) guidelines** and are updated annually. Your sliding fee scale daily visit amount is determined at least annually, or whenever your financial situation changes. No one will be denied access to services due to an inability to pay.
